

## CE DECLARATION OF CONFORMITY

**Product:** The following are the Servo Amplifier Model, Gold Line Products, followed by XXX/YYY, which may be prefixed or multiple characters/digits suffixed

Part Number	Product Name
CAN-XX/YYY-G	Gold Canary
FLU-XX/YYY-G	Gold Flute
PIC-XX/YYY-G	Gold Piccolo
RAV-XX/YYY-G	Gold Raven
ROB-XX/YYY-G	Gold Robin
G-SOLBEE*XXX/YYY*	Gold Solo Bee
VIO-XX/YYY-G	Gold Violin

XX/YYY XX may be one, two, or three digit(s) to denote Current and YYY may be two or three digits to denote Voltage

\* as a prefix represents the output current profile, and as a suffix can be multiple characters/digits representing the options; feedback, network communication type, feedback for Axis 2, other options, I/O and STO types

The products mentioned above are in accordance with the EU Low Voltage Directive The products mentioned above are in accordance with the EU Low Voltage Directive (2014/35/EU) and EU Electromagnetic Compatibility Directive (2014/30/EU).

Conformity of the products designated above is under the following Gold Line standards:

Standard	Details
<b>IEC 61800-3:2017</b>	Adjustable speed electrical power drive systems - Part 3: EMC requirements and specific test methods
<b>IEC 61326-3-1</b>	Electrical equipment for measurement, control and laboratory use - EMC requirements - Part 3-1: Immunity requirements for safety-related systems and for equipment intended to perform safety-related functions (functional safety) - General industrial applications

The product is intended to be used as a component with suitable motors, controller and other equipment to complete end products or systems. To comply with the safety and EMC regulation, the end user must install and configure the product correctly, including using input filters. A qualified person, who is familiar with the EMC and safety requirements, must install the product and be responsible for ensuring that the end product complies with all the relevant local laws, where it is intended to be used.
